-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This Office action is responsive to the application filed 02/02/01. Claims 1-14 are presented for examination.

2. The examiner requests, in response to this Office action, any reference(s) known to qualify as prior art under 35 U.S.C. sections 102 or 103 with respect to the instant claims. That is, any prior art (including any products for sale) similar to the instant claimed invention that could reasonably be used in a 102/103 rejection. This request does not require applicant to perform a search. This request is not intended to interfere with or go beyond that required under 37 C.F.R. 1.56 or 1.105. This request may be fulfilled by asking the attorney(s) of record handling prosecution and the inventor(s)/assignee for references qualifying as prior art. A simple statement that the query has been made and no prior art found is sufficient to fulfill the request. Otherwise, the fee and certification requirements of 37 CFR section 1.97 are waived for those documents submitted in reply to this request. This waiver extends only to those documents within the scope of this request under 37 CFR, section 1.105 that are included in the application's first complete communication responding to this requirement. Any supplemental replies subsequent to the first communication responding to this request and any information disclosures beyond the scope of this request under 37 CFR section 1.105 are subject to the fee and certification requirements of 37 CFR section 1.97. In the

event prior art documentation is submitted a discussion of relevant passages, figs. etc. is requested. **A response to this inquiry is greatly appreciated.**

The examiner also requests, in response to this Office action, support be shown for language added to the claims on amendment. That is, indicate support for newly added claim language by specifically pointing to page(s) and line no(s). in the specification and/or drawing figure(s). This will assist the examiner in prosecuting the application.

3. Acknowledgment is made of applicant's claim for priority under 35 U.S.C. § 119. The certified copy has been received.

4. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

5. Claims 4, 5, 6-11 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 4, line 3, it appears ---said first--- should be inserted before "data storage". Lines 3-4, "said storage means" lacks a clear antecedent.

Regarding claim 5, line 3, it appears ---said first--- should be inserted before "data storage". Lines 3-4, "said storage means" lacks a clear antecedent.

Regarding claim 6, lines 3 and 5, it appears ---first--- should be inserted before "data storage".

Regarding claim 9, lines 3-4, "said second data storage" lacks antecedent basis.

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

7. Claim is rejected under 35 U.S.C. § 102(b) as being anticipated by Makipaa et al. (Pat. No. 6,394,341).

Makipaa teaches the claimed "first data storage device" as corresponding to a data base within transaction provider 12, and/or the memory in user information system 18 shown in figure 1. The claimed "wireless communication means" corresponds to wireless communication" shown as line 16, 19, 22 and/or 24. The claimed "data processing device" corresponds to user device 14. User device may be any one of a smart card, mobile terminal including a wireless, telephone or short range wireless communication link, such as Bluetooth, or a PDA etc. (see col. 8, lines 46-50). The

Art Unit: 2188

claimed step of "receiving a list of information" corresponds to information received from transaction provider 12 and/or user information system 18. The claimed step of "to display the list in a display section" corresponds to user device 14 receiving information to advertise or otherwise communicate information about a wide range of financial transactions (see col. 8, lines 40-46). Applicant should note user devices such as terminals, cellular telephones and PDA have displays. The claimed step of "receiving a portion of said data selected out of the list" corresponds to user device 14 communicating with the transaction provider 12 a selection by the user (see col. 8, lines 61-64). The claimed "wireless communication means" corresponds to wireless communication shown as line 16. The claimed "second data storage device" corresponds to the memory in user information system 18 and/or the memories attached to intermediate service providers 20.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Applicant should review the prior art not relied upon for its relevance to the instant claims.
